

DAWN GIBBONS

FIRST LADY OF NEVADA

May 16, 2008

Chairman Kevin J. Martin
Federal Communications Commission
445 12th Street, SW
Washington, DC 20554

Dear Mr. Martin,

Herb Perry's radio show from Las Vegas is one of our best weapons in fighting many of the social problems affecting the citizens of Nevada. Keeping the public informed is the first step toward finding solutions to the various dilemmas of this day and age.

His broadcast of Crystal Darkness (Nevada's fight against methamphetamine use) was key in launching the statewide campaign against this heinous drug. I am convinced his show has positively impacted many lives through his conscientious transmissions. Also, his report on the alarming number of children diagnosed with autism has informed parents of what to look for and where to seek help. In addition, many Nevadans have realized the importance of volunteering from Herb's program on the participants of Americorp.

As First Lady of the State of Nevada, I recognize and appreciate all of Herb's efforts to face our various social problems and to do his utmost for the betterment of others.

Warmest Nevada regards,

A handwritten signature in cursive script that reads "Dawn Gibbons".

Dawn Gibbons
First Lady of Nevada
